

Mergers and Acquisitions

From our beginnings as a startup, Skadden forged a reputation as a global leader in mergers and acquisitions by relying on innovation, intellect, teamwork and tenacity. In some ways, little has changed: By remaining steadfastly committed to the qualities underlying our early successes and adding to our collective experience over the decades, our lawyers are able to advise clients in almost any potential M&A scenario.

Our Approach

While we advise many of the world's largest companies, investment banks and other active participants in the M&A market — often on their most high-profile transactions — Skadden also represents smaller entities that are not regularly engaged in such deals. Our attorneys partner with clients to bring innovation, creativity and commitment to excellence to every matter, regardless of size.

Skadden's top-tier M&A practice is known for providing sophisticated and coordinated real-time counsel whenever and wherever needed. In all aspects of our work, we remain true to our core beliefs of doing what is right for clients through a collaborative partnership that delivers results. We have one of the largest, most experienced teams of transactional lawyers who possess a diverse range of backgrounds, allowing us to successfully handle any potential situation that may arise in a transaction.

Skadden lawyers handle the full spectrum of negotiated and contested situations, including:

- Advance preparation for prospective targets
- Asset sales and purchases
- Corporate governance advice
- General corporate counseling
- Joint ventures
- Leveraged buyouts
- Private equity
- Proxy contests
- Recapitalizations
- Special purpose acquisition company (SPAC) initial business combinations
- Spin-offs/Split-offs
- Stock sales and purchases
- Strategic mergers
- Tender offers

Skadden is well-known for our representation of bidders, targets, boards of directors, shareholders and financial advisors in unsolicited (“hostile”)

transactions and contests for corporate control, including in connection with tender offers and proxy fights. The firm has been involved in contested takeovers and proxy contests since our earliest years, and we are recognized as a leader in the area. Over the last several decades, we have advised on many of the biggest corporate battles worldwide, working with clients to achieve results in their very best interests.

Our attorneys regularly counsel companies in connection with corporate governance, takeover preparedness and other corporate matters that do not involve pending mergers and acquisitions. We provide advice in a broad range of areas, including directors' duties and responsibilities, board and committee structures, corporate preparedness and contingency planning, "anti-takeover" charter and by-law provisions and rights plans, and director indemnification, severance and change-in-control compensation arrangements.

Our Resources

We easily collaborate across our global platform, seamlessly leveraging our broad range of practices to successfully handle our clients' most challenging transactions from start to finish.

Geographic Reach

Skadden's long-standing experience in handling complex, cross-border mergers and acquisitions, coupled with our ability to assemble teams from 21 offices around the world, allows our attorneys to provide pertinent subject matter advice and geographical coverage for the most sophisticated multijurisdictional transactions.
