

Tax Controversy and Litigation

Skadden

Skadden's Tax Controversy and Litigation Group assists clients in resolving high-stakes, complex tax disputes. Our group has repeatedly earned recognition as one of the leading tax practices, including in *Chambers USA*, *Law360*, *The Legal 500* and *International Tax Review*.

Our tax controversy and litigation attorneys represent clients in every type of dispute with taxing authorities, including audits, administrative appeals, Tax Court and district court litigation, and international matters involving competent authority.

We handle a broad range of tax matters involving transfer pricing, financial products, partnership issues, tax accounting, tax credit qualifications, gift and estate taxes, excise taxes, exempt organization qualification, employment taxes and worker classification matters, tax treaty and withholding tax issues, novel controversies related to the Tax Cuts and Jobs Act (TCJA), and state and local taxes.

Our clients rely on the deep experience of our tax attorneys, many of whom have previously served in U.S. government positions, including at the IRS, Department of the Treasury and White House, as well as on congressional tax writing committees.

Administrative Settlements

The vast majority of our successes for clients are reached privately through the administrative process, which involves developing creative resolution strategies and utilizing various procedural avenues including with IRS exam, prefilling agreements, IRS appeals, multijurisdictional (competent authority) and voluntary disclosures. We have helped a number of clients, across a variety of industries, during IRS audits to reach settlements on favorable terms, including, in some cases, with no adjustments. Recent representative experience includes:

- Helping a **hedge fund** client resolve a long-running, multibillion-dollar tax dispute, which *The Wall Street Journal* described as one of the largest tax settlements in history.
- Representing **Veolia Environnement SA** (France) in its IRS dispute regarding a \$4.5 billion worthless stock deduction. Following an extensive 10-year-long audit, the IRS conceded in full.

- Representing **prominent individuals** in IRS global high wealth examinations.
- Representing **partnerships** in energy investment tax credit disputes
- Representing a **major financial institution** in its IRS audit of a complex multijurisdictional restructuring, and settling the dispute with no adjustments.

US Tax Litigation

We have been involved in some of the most significant litigated tax cases in the United States, both at trial and on appeal. Recent successes include:

- Victories in Tax Court trials of large transfer pricing disputes, including for:
 - **Amazon** in one of the largest transfer pricing cases in decades and the first involving e-commerce; and
 - **Eaton Corp.** in the first case involving the court's review of an IRS decision to retroactively cancel an Advance Pricing Agreement.
- Victories in a district court on behalf of **Altria Group Inc.** in a tax refund IRS dispute, and in a Tax Court trial on behalf of **Fidelity Investments** in a tax credit dispute, the first IRS challenge to an energy-related tax equity partnership transaction in many years. The victory for Fidelity was subsequently affirmed by the D.C. Circuit.
- A rare award of sanctions against the IRS on behalf of **LakePoint Land II, LLC** as a result of actions by the government that the Tax Court found to have been in bad faith and that unreasonably and vexatiously multiplied the proceedings.
- Favorable settlements, including:
 - in Tax Court on behalf of the **Estate of William Barron Hilton, Mylan Inc.** and **Agero Holdings, Inc.**; and
