Practice Note for Foreign Private Issuers (FPIs)

Generally, FPIs may use audited financial statements that are up to 15 months old at the time of effectiveness, except in certain instances. For example, in an IPO by an FPI that is not already listed in another jurisdiction, the audited financial statements may not be older than 12 months at the time of filing and at the time of effectiveness unless the FPI is able to represent adequately to the SEC that it is not required to “comply with this requirement in any other jurisdiction outside the United States and that complying with the requirement is impracticable or involves undue hardship.” For a registration statement that becomes effective more than nine months after the end of the last audited fiscal year, unaudited interim financial statements covering at least the first six months of the fiscal year (or more current financials, if published) are required.

Special Accommodation for Gap Periods

Staleness dates do not always align with Exchange Act reporting deadlines, resulting in a gap during which a registration statement may not be filed or declared effective. However, the SEC typically allows for the filing or effectiveness of a registration statement during gap periods for issuers that have timely filed all Exchange Act reports in the last 12 months, making the staleness date the same as the Exchange Act reporting deadline. As a condition, the SEC may require confirmation that the quarterly report will be timely filed and that there have been no material trends, events or transactions that arose after the date of the latest balance sheet included in the filing that would materially affect an investor’s understanding of the issuer’s financial condition and results of operations. See “Division of Corporation Finance Financial Reporting Manual,” Section 1220.⁵

¹ See Reg S-X Rule 3-12. Based on December 31, 2016 fiscal year end.

² A “**Loss Corporation**” does not expect to report positive income after taxes but before extraordinary items and the cumulative effect of a change in accounting principle for the most recently ended fiscal year and did not do so for at least one of the two prior fiscal years.

A “**Delinquent Filer**” means a registrant that files annual, quarterly and other reports pursuant to Section 13 or 15(d) of the Exchange Act, but all reports due have not been filed.

³ Assumes that the filer is not a Loss Corporation or Delinquent Filer.

Generally, a “**Large Accelerated Filer**” is an issuer (a) with an aggregate worldwide market value of voting and non-voting equity held by non-affiliates of \$700 million or more (as of the last business day of the issuer’s most recently completed second fiscal quarter); (b) has been subject to the requirements of Section 13(a) or 15(d) for at least 12 calendar months; and (c) has filed at least one annual report pursuant to Section 13(a) or 15(d).

Generally, an “**Accelerated Filer**” is an issuer that meets the requirements above, except the market value criterion is \$75 million or more, but less than \$700 million.

If an issuer no longer qualifies for its particular status (less than \$500 million and more than

\$50 million for Large Accelerated Filers and less than \$50 million for Accelerated Filers, calculated as of the last business day of the issuer’s most recently completed second fiscal quarter), it will nevertheless remain in its existing status until the end of that fiscal year. See Exchange Act Rule 12b-2.

⁴ If the regulatory staleness date falls on a weekend or federal holiday, the staleness date is extended to the next business day. See Securities Act Rule 417.

⁵ Instruction 2 to Item 8 of Form 20-F provides an extension of the staleness dates for foreign private issuers in connection with certain types of offerings to eliminate the gap period for issuers that only file financial statements semi-annually.
